[Podfic] 'Meet Me In Dreamland' by sinflower81

by [OllivandersVoices](#), [thedramionearchives](#) ([dittanyanddreams](#))

Summary

If there's one thing Hermione Granger is good at, it's using magic to fix her problems. And this time, her problem is sex.

Luckily, she has the perfect solution: a locket enchanted with the Patented Daydream Charm. Whenever she opens it, she'll find herself in Dreamland, where she can live out all her filthiest fantasies risk-free.

The magic is a bit tricky, though. For some reason, Malfoy keeps showing up there with her. Thank goodness it's only an illusion—if that was really him, she would never live it down.

Meanwhile, Draco is determined to figure out who the fuck is cursing him to suffer through highly realistic, erotic hallucinations of his secret childhood crush. When he finds the culprit, there will be hell to pay.

This is a collaborative podfic/audio version narrated by The Dramione Archives and The Wizard Wheezes of the original written word
